

Invitation to join OCCA SA

Dear *Potential OCCA SA member*,

I attach the OCCA membership application form for your convenience in case you have not downloaded it yet. Please complete this and email it to the relevant secretary for your Section, as indicated on the form. He or she will send you an invoice for your annual subscription and get you signed up as a new member.

For your annual membership fee of R520 you will become a member of **OCCA SA – Surface Coatings Association of South Africa**, a non-profit organization that promotes technical education on the use of new technologies for surface coatings. We provide a platform for networking and technology transfer between our members and technology providers.

As society is returning to normal after Covid, we start holding social events and mini symposia again covering technical topics. We will continue holding regular Webinars on technical topics. These are made available on the OCCA SA Website afterwards, for our members to watch at their leisure.

You will receive a link to the quarterly publication **COATINGS SA**, containing news on the local coatings industry.

Other benefits of being an OCCA member:

- Access to the OCCA UK website **Members area**, which includes the Surface Coating International (SCI) digital Journal, plus access to recorded technical webinars presented by UK.
- Invitations to technical webinars presented by OCCA in both SA and the UK.
- Member discount on participation in the COATINGS FOR AFRICA and mini symposiums.
- We have now started, in the OCCA SA webpages, our own Member's area. You will have access here to all previously presented webinars and a Suppliers List. Please contact us if you'd like to add your company's detail to this list.
- Take part in the regular technical webinars as presenter, host or organiser for any relevant technical subject or product presentation in the Coatings field.

OCCA is a voluntary non-profit organisation. As such it relies on a strong and growing membership base to keep it relevant to the Coatings industry.

We look forward to welcoming you and your colleagues as new members.

Kind regards

Evert Bolt

OCCA – Surface Coatings Association of Southern Africa
